

Keith W. Stillwagon, Radon Mitigation Specialist

Business Mitigation license # MIB0062

Keith W. Stillwagon started in the Radon business in 1986 working for Ross Environmental Systems, Inc. a forerunner in the radon industry. Keith was a testing technician using Eberline WL monitors, Femto Tech monitors, charcoal canisters and electrets performing thousands of tests in the tri-state area. Keith later formed and supervised a radon mitigation crew for Ross Environmental Systems.

Education

Penn State Nuclear Engineering Dept. Reducing Radon in Structures. Attended and completed many radon testing and radon mitigation courses at Cook College, Rutgers, and New York State Dept of Energy and ESU in Pennsylvania. Keith

has personally performed thousands of successful radon mitigations in residential homes and commercial buildings in the Tri-State area.

Certifications/License

Keith currently holds valid NJDEP certifications for radon testing technician and Radon Mitigation Specialist.
